Conservation Compliance Status

For each Conservation Standard, please check the box that best characterizes the farm(s) on which you are claiming the tax credit. Please complete all sections. If a section does not apply to your farm, check Doesn't Apply column.

Conservation Compliance Standard Status

Cropland	Compliance	
<p>You have and are following a soil and water conservation plan. (Cropped fields meet tolerable soil loss.) And a Nutrient Management Plan has been developed and implemented according to NRCS 590 Standard.</p> <p>Please enclose your signed 590 Checklist for the 2016 Crop Year with this form; otherwise check with your renter or consultant to ensure it has been submitted. Certification will not be processed without a Current 590 Checklist on file. *Please Note: farmer written plans are subject to additional requirements.*</p>	<input type="checkbox"/>	

Conservation Compliance Standard	Compliance	Will Achieve	Doesn't Apply
----------------------------------	------------	--------------	---------------

Livestock: Manure Storage Facilities

All facilities constructed or substantially altered after 2002 meet the NRCS 313 Standard.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
All facilities have no visible signs of leakage or failure.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
All facilities are maintained to prevent overflow.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
For storage facility that has not had manure added or removed within 24 months, it has been closed according to standards or its continued use had been approved.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Livestock: Clean Water Diversion

Runoff is diverted away from all feedlots, manure storage areas and barnyards within Water Quality Management Areas. WQMA= areas within 300' of streams, rivers or wetlands and within 1000' of lakes and in areas susceptible to groundwater contamination such as wells and sinkholes.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	--------------------------	--------------------------

Livestock: Manure Management Prohibitions

There are no unconfined manure piles in a WQMA.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
There are no channels or other indicators of significant discharge from a feedlot or stored manure into waters of the State.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
There is self-sustaining sod or vegetative cover adequate to preserve streambank or lakeshore integrity in areas where livestock have access.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

I certify that the qualifying acres are part of a farm that is in compliance with the applicable conservation standards or that compliance will be achieved as indicated above.
